

EPMagazine ISSUE LAB.

Welcome to this laboratory!

You will paginate an article, choosing among the proposed sections, according to the following points:

- The article must have a complete submission-form, filled with keywords and requested data.
 - Articles should have four images per page at least.
 - Articles should have a complete and correct bibliography. Personal sites, social networks, encyclopaedia are not suitable sources for a scientific research.
 - The article has to be didactically useful, clear and original (NO PLAGIARISM AT ALL!).
 - All the web links need to work.
 - The article should have a photo of the author, if a student.
- The images need captions in both languages.
 - The contribution has to be sent to referees, to check mother tongue, English, and topic correctness.
 - At last, the paginated article has to be sent to the author for final corrections and agreement.
