EPM Award 2011 and over

In Bucarest, we decided to add two new Sections to the *Magazine* (University and Technology for Green Energy).

We have to decide if these new sections are allowed to participate to the same competition together with **14/16** and **17/19**.

We could:

1. Maintain **EPM Award** for the previous sections;
2. Allow participation to the new sections;
3. Provide two **EPM Awards**: one for secondary school students and another for University ;

Thanks for your
participation!
